WELCOME TO FOOTSTEPS CHILD CARE, INC.

On behalf of the Board of Directors and staff, welcome!

We share a common goal - quality programming - creating a safe, trusting, and challenging environment where children are encouraged to pursue new and familiar interests, develop friendships, grow in confidence and independence, and continue to develop respect for themselves and others.

Footsteps operates seven infant, toddler, preschool, and afterschool programs in the local communities of Belmont, San Mateo, Redwood City, and Redwood Shores.

We are a private, non-profit corporation governed by an Executive Board of Directors comprised of parents and guardians. Footsteps Child Care, Inc. offers safe, supervised, quality care, designed to meet the developmental and social needs of the children and youth enrolled.

This handbook outlines what to expect, and what is expected from you at our Footsteps Child Care, Inc. School Age Program Sites. If, after reading this handbook and attending the orientation, you have additional questions, please contact us so we can answer your questions.

MISSION STATEMENT

Footsteps Child Care, Inc. provides infants, children, youth, and their families, quality programs in a safe, nurturing, and enriching environment, through caring and professional staff and family involvement.

PROGRAM GOALS AND PHILOSOPHY

Footsteps Child Care's philosophy and approach is based on research and best practices, which includes play-based curriculum, child, teacher, and family-initiated experiences, continuity of care and consistency in routines. The heart of our programs is the belief of respect for children, families and their point of view.

- We believe children learn through play, exploration, and discovery. We have an integrated approach to our play-based curriculum, focusing on children's development and emerging interests.
- We support and enhance the school day by providing and creating opportunities for children and youth to learn and experience new things through physical activity, social experience, hands-on participatory activity, and choice.
- The curriculum includes a variety of age and developmentally appropriate group and individual activities, both structured and non-structured.
- The program provides the children with the space and time to discover and learn and practice new skills.
- We believe the staff enhance children's play in the role of facilitator, guide, partners, and initiators.
- We provide the children and youth with supportive and encouraging staff, striving to assist children in developing and maintaining a positive self-image and encourage children to take responsibility for themselves and their actions while learning social skills, such as problem solving and cooperation with others.

ADMISSION POLICY

- We are non-discriminatory in admission, on the basis of sex, sexual orientation, gender, gender identity, ethnic group identification, race, ancestry, national origin, religion, color, or mental or physical ability. Our programs serve children and youth, infant through eighth grade.
- **A parent or guardian is required to attend an orientation before the child attends.** If you cannot attend the scheduled orientation, please set up an individual orientation before your child's first day.
- We will make every effort to include children with exceptional needs in our program. Children who have exceptional needs are considered for admission on an individual basis. The Deputy Director and the Site Director will meet with the parent or guardian before enrollment to determine if the program is the best environment for the child. Upon enrollment, staff and parents will continue to meet regularly to monitor the child's progress and discuss how best to support the child.

It is sometimes necessary to redirect children and their families, especially if we do not have facilities or staff to work with the child's exceptional needs. In these cases, the Deputy Director and the Site Director

- If your child experiences a serious medical or dental emergency when in our care, we take the following steps:
 1. Call 911.
 2. Call the parent or guardian; if we are not successful, we call the names listed as emergency contacts.
 3. Call the listed doctor or dentist; and,
 4. Notify Footsteps Child Care, Inc. Executive Director.
- If a child must be transported by ambulance, a staff member accompanies the child until a parent or guardian arrives. Emergencies of this nature are very rare; we make every effort to provide a safe program.

We MUST be able to reach someone in case of an emergency!

ILLNESS

- Please inform your Site Director of your child's absence by the start of care on any day your child is absent via Procure Connect, email, or telephone.
- Contact Footsteps immediately if your child becomes ill with a contagious illness. When a contagious or communicable disease has been reported (such as Pink Eye or Strep Throat), a notice is posted and sent to families.
- We understand the challenges working parents face; however, in the best interests of the children and staff in our programs, we must have a standard and reasonable framework determining why a child may not attend our program.
- If your child has been ill or injured, we reserve the right to request a note from a doctor before your child returns to our program.
- If there is a difference of opinion between the parent, the personal physician, and the school, the judgment of the school must prevail.
- Do not send your child to the program with any of the following symptoms: fever, open wound, undiagnosed rash, vomiting, diarrhea, head lice, discharge from the eyes, severe cold, or sore throat.
- If a child becomes ill during child care, we:
 1. Place the child in a quiet area isolated area of a room to await pick up.
 2. Telephone you to pick up your child. Footsteps Child Care will expect a parent to pick up a child within 30 minutes if a child exhibits symptoms of illness during the day.
 3. If you cannot be reached, staff will call the emergency contact listed on the Emergency Form. Please make sure your Emergency Contacts are aware they are listed as an emergency contact and may be contacted in case of emergency when you are not available.
- **Children MUST be fever free for 24 hours (without the use of fever reducing medication) before returning to the program. We classify a fever as a temperature of 100.4 F/38 C or higher.**
- **If a child is sent home from one of our programs due to a contagious illness, they MUST remain home the entire following day or if fever is present for 24 hours, no exceptions.**
 1. Diarrhea is a symptom of intestinal problems and can be very contagious. Mild diarrhea is the passage of a few loose or mushy stools. Moderate diarrhea involves many abnormally loose or frequent stools. Children with diarrhea may NOT remain in the program and must stay home until they are symptom free and have had a normal bowel movement.
 2. Rashes may be a minor allergy or a reaction to an insect bite and may be caused by chicken pox, impetigo, or other bacterial and viral infections. If a new rash appears, you must take your child to a doctor so that we may eliminate the possibility of infectious diseases.
 3. Conjunctivitis (Pink Eye) is very contagious and may be caused by bacteria or a virus. Children may not return to the program until 24 hours after antibiotic treatment has begun AND eyes must be clear and free of discharge. If discharge reappears after your child has returned to the program, we will send your child home.
 4. Covid – We follow the California Department of Public Health guidelines for positive Covid infections and exposure.

HEAD LICE

Footsteps Child Care follows the Center on Disease Control recommendation; children diagnosed with live head lice do not need to be sent home early; they can go home at the end of the day, be treated, and return to class after appropriate treatment has begun.

Children and the household MUST be treated and the child nit-free to return to the program. Nits may persist after treatment, but successful treatment should kill crawling lice. Cases of head lice are predictable in children's programs. Head lice can be a nuisance, but they have not been shown to spread disease. Personal hygiene or cleanliness in the home or school has nothing to do with getting head lice.

1. Please do routine lice checks on your child.
2. Look for nits (eggs) as well as lice. The nits fix on the hair and do not flake off like dandruff. If nits are found, please let us know immediately

3. You must treat your child and your house for lice before your child can return to child care. We will require proof of treatment.
4. When a case of lice is reported we will check all children, notify parents, treat the center; and,
5. We will recheck the children in a classroom for up to two weeks after the last reported instance of head lice.
6. For more information about head lice, contact your Site Director.

 - Children/youth may administer prescription medications to themselves with written permission from the parents. The child/youth must be under adult supervision and away from other children.

BEHAVIOR EXPECTATIONS AND GUIDELINES

Program Expectations

Footsteps Child Care, Inc. is a place that is safe, respectful, and friendly. We are inclusive and we are healthy. These are our behavior expectations, the staff models these behaviors, and we respect the dignity of the children, the families, and the staff.

- Staff strives to encourage cooperative problem solving, internalizing impulse control, and appropriate verbalization of feelings.
- When a problem arises between children, children are encouraged to resolve their problem through discussion.
- Staff are available to help children with problem solving, make suggestions, offer support, help, and guide children to solve differences.
- Children are encouraged to recount the facts to each other, including staff, and to consider other ways to handle the difficulty in the future.

PRESCHOOL PROGRAMS

In the Preschool Programs we use the Teaching Pyramid. The Teaching Pyramid approach provides a systematic framework that promotes social and emotional development, provides support for children's appropriate behavior, prevents challenging behavior, and addresses problematic behavior.

The Teaching Pyramid is based on evidence-based practice originally developed by the Center on the Social Emotional Foundations in Early Learning (CSEFEL), authorized by California Department of Education (CDE), and aligned with California's Early Learning and Development System.

The overarching goal of the Pyramid Model is to create a positive experience for each child through evidence-based practices that promote child engagement and learning while focusing on teaching children the appropriate social skills they will use to develop friendships and regulate their emotions.

Outcomes from the Teaching Pyramid

- Programs that implement the comprehensive program-wide approach to the Teaching Pyramid will have a successful and sustainable approach for ensuring healthy social and emotional development of the children they serve.
- An effective leadership team that continues to meet regularly who serves as a guide for implementation of Teaching Pyramid concepts, and champions and supports implementation and sustainability.

- Competent, well-trained staff who understand the Teaching Pyramid concepts are equipped with Teaching Pyramid tools and strive to implement the practices.
- Staff who are able to reflect on and adjust as needed their use of Teaching Pyramid practices in the classroom through support from coaching and competent internal coaches who can support staff in reflecting and implementing Teaching Pyramid practices in the classroom.
- Staff who are trained to facilitate sessions for parents who subsequently are then able to implement Teaching Pyramid concepts at home.
- Children who are socially competent and emotionally literate, able to talk about their feelings, regulate their strong emotions, solve their own conflicts, and model the language and tools of the Teaching Pyramid.

No corporal punishment or violation of personal rights is allowed at any of our sites at any time.

If the staff is unable to resolve a problem with a child's behavior (such as chronic aggressive, abusive, disturbing, or destructive acts), the Site Director will:

- Request a conference with the parent or guardian to discuss the problem or situation. Together, a plan of action will be instituted to manage the problem.
- If the behavior or situation continues, or there is no improvement, the Site Director will inform the parent or guardian that the child's behavior continues to be a problem and will request a conference.
- The Site Director will apprise and consult with the Executive Director or Deputy Director concerning the situation, action taken, and plans of corrective action.
- *If the problem cannot be resolved, the Site Director will give the Parent or Guardian a notice of dismissal, in writing. This dismissal notice can be immediate if the situation warrants; especially if involves a child violating the personal rights of others (other children, staff, parents, themselves, etc.).*

Parents and guardians are expected to adhere to all the rules and regulations of our program.

We request parents and guardians do not discuss problems, concerns, or confidential situations in front of children or other adults. Instead, parents are encouraged to make an appointment to speak with the Site Director to discuss any problems, concerns, or suggestions.

Progressive Discipline

- When a child is having ongoing behavior difficulties, a predetermined set of consequences, with the parent's notification, may be instituted. The consequences are explained in advance. The purpose of progressive discipline is to help the family understand the severity of the difficulty in advance and encourage the family to collaborate with the staff.
- The staff and parent or guardian have the right to request a conference at any time.
- Footsteps Child Care, Inc. will not tolerate behavior of an aggressive or violent nature to other children, staff, or to anyone who is on the premises of a Footsteps Child Care, Inc. program. This includes bullying, teasing, threats, or taunting.
- Families are requested not to confront another child or family regarding an issue but should utilize staff to help resolve conflicts or difficulties.
- Footsteps Child Care, Inc. reserves the right to refuse service.

Removal from the Program

We reserve the right to suspend any child for disciplinary reasons. In such cases, tuition is not refunded. Children who compromise the safety of the children and staff will be suspended or removed from the program. Other instances when child care services may be terminated, and the child removed from the program:

- A family or child's failure to comply with Footsteps Child Care's policies and procedures, including health mandates and guidelines, procedures, and protocols as grounds for suspension or termination.

Footsteps Child Care Preschool Curriculum

Footsteps operates infant, toddler, preschool, and afterschool programs in the local communities of Belmont, Redwood City, and Redwood Shores.

Footsteps philosophy and approach is based on research and best practices, which includes play-based curriculum, child, teacher, and family-initiated experiences, continuity of care and consistency in routines. The heart of our programs is the belief of respect for children, families and their point of view.

- We believe that children are competent, curious, self-motivated learners who are ready to explore the world around them.
- We believe the child's family and its culture and language are central to a child's development and learning. In high-quality programs, relationships between the family and the child's teachers are central to its success.
- We believe in a family-oriented approach to infant toddler care and education. For infants and toddlers, the family's influence on development and learning is paramount.
- We believe that a responsive relationship between the child and their caregivers/teachers is the basis for early care & learning. Nurturing relationships that meet the child's needs is the foundation for children's early emotional security.

- We acknowledge children innately know how to learn by interacting with their social and physical environments.
- We believe children learn through play, exploration, and discovery. We have an integrated approach to our play-based curriculum, focusing on children's development and emerging interests.
- We understand children have unique needs and capabilities and they learn at their own developmental timetable.
- We provide school age youth with supportive and encouraging staff, striving to assist children in developing and maintaining a positive self-image and encourage children to take responsibility for themselves and their actions while learning social skills, such as problem solving and cooperation with others.
- We believe that teachers enhance children's play in the role of facilitator, guide, partners, and initiators.
- We believe in continual learning and improvement for our staff and programs.
- We believe in collaborating with local community resources.
- We believe in high quality and affordable child care for all income levels.

All of the Center classroom environments offer a rich variety of spaces, material, and activities organized to promote children's active exploration and mastery. Although classrooms often appear informal, they are the result of careful planning and structuring to ensure that the needs of each child are met in a supportive and nurturing way. Our teachers encourage curiosity and enthusiasm for learning, promote cooperative social interactions, support individual creativity and diversity, and provide opportunities for children to use their growing bodies to develop a sense of autonomy and self-worth. Children spend the majority of their day involved in a variety of activities: art, block building, dramatic play, music, sorting and matching games, listening to stories, movement activities, science activities, and large motor play.

Play is an active, child-initiated process that supports children's learning throughout the preschool foundations, Approaches to Learning Self-Regulation, Social & Emotional Development, Language & Literacy Development, English Language Development, Cognition including Math & Science, History & Social Science, Physical Development & Health, and Visual & Performing Art. By taking advantage of the highly engaging nature of children's self-sustained play and using this as a jumping off point for a deeper exploration of the science concepts involved, teachers can generate curriculum units that both integrate child-centered play and maximize children's learning. Through thoughtful planning and the use of significant strategies to enhance children's play experiences, they can integrate specific learning goals and objectives for the group and for individuals, dramatically enhance children's learning, and meet standards for preschool outcomes in all areas.

- Play assists us in offering quality programming - The classrooms are composed of children Infant (Six-weeks)-Toddler (24-Months), Two years-Three years, Four years-entering Kindergarten, or 3 years-entering Kindergarten. These multi-age groupings exemplify our commitment to provide an experience to enhance the development of each child's whole self: creative, intellectual, physical, social, and emotional. As each of these facets develops at different rates, the children seek activities and experiences that meet their individual needs. In addition, children with different knowledge and abilities stimulate one another's thinking and encourage pro-social behaviors amongst themselves. But, perhaps most importantly, this enables families, children, and teachers the chance to build strong and consistent relationships with one another. Play is the channel we most often use to achieve these outcomes.
- Foster life-long learners - The classroom environment offers a rich variety of spaces, material, and activities organized to promote children's active exploration and mastery. Although the classroom often appears informal, they are the result of careful planning and structuring to ensure that the needs

of each child are met in a supportive and nurturing way. Children spend the majority of their day involved in a variety of activities: art, block building, dramatic play, music, sorting and matching games, listening to stories, movement activities, science activities, and large motor play.

- Foster improved social interaction and cooperation – Using play our teachers encourage curiosity and enthusiasm for learning, promote cooperative social interactions, support individual creativity and diversity, and provide opportunities for children to use their growing bodies to develop a sense of autonomy and self-worth.

With infants and toddlers, we work to provide an environment as home as possible – warm and welcoming, cozy spaces, photos of family, and so on. In the classroom, infants develop intimate relationships with a stable caregiver. Care giving activities such as feeding and diapering are warm, consistent, and individualized. These routines are viewed as opportunities for the infants to receive undivided adult attention and to promote language, self-awareness, and social skills. The infants' preexisting patterns for feeding and sleeping are respected and incorporated into the child's daily routine. Consistency in routines and schedules allow children to anticipate what is coming next, thus transitions are predictable.

The preschool classrooms are composed of children 2 years to 5.9 years of age. Footsteps Child Care, as part of the State Preschool contract, uses the State of California Foundations and Frameworks. Eight principles guide the development of the entire curriculum framework. Grounded in early childhood research and practice, the eight principles emphasize offering young children individually, culturally, and linguistically responsive learning experiences and environments

- Relationships are central
- Play is a primary context for learning
- Learning is integrated
- Intentional teaching enhances children's learning experiences
- Family and community partnerships create meaningful connections
- Individualization of learning includes all children
- Responsiveness to culture and language supports children's learning
- Time for reflection and planning enhances teaching.

Because we want the Centers to be an extension of a child's family life, we offer a variety of ways for parents to become involved in children's classroom experience and in Center concerns. Conferences are scheduled. Parents are invited to share in their child's daily activities, to volunteer for field trips, special events or to visit the classroom. The organization and the individual centers plan several social events, parent meetings, and work parties each year. In addition, parents are invited to join the Site Council, which meets monthly.

Concepts of the Outdoor Classroom

In concert with modern child development research findings, the concept of the Outdoor Classroom is built upon the premise that children are complex beings. To nurture the whole child, early childhood education follows the fundamental principle that children are learning everywhere and all the time. The focus is on the real needs of children, offering activities that are personally meaningful to them, and fully embraces developmentally appropriate practices.

Characteristics of the Outdoor Classroom

- Most activities that can be done indoors can be done outdoors. Some activities occur best outdoors; some can only occur outdoors.
- Children spend substantial periods outside, and it is easy and safe for them to get there; they are free to move easily between the indoors and outdoors.
- There is a full range of activities for children to participate in, including many activities traditionally thought of as “indoor activities.”
- The outdoor space offers a balance of areas for physically active and less active play.
- While outside, children frequently have the opportunity to initiate their own learning experiences and activities, with teachers available to support them.

Desired Results For Children and Families

San Mateo County Office of Education Child Development State Preschool and Pre-Kindergarten subcontracted program services includes a Desired Results Developmental Profile (DRDP) assessment completed twice a year. The system has been established by the California Department of Education, Child Development Division, and is used throughout the state. The Desired Results System

- Emphasizes results for children and families
- Results-based accountability for state-funded center based and family child care homes
- Set of tools for helping administrators and staff systematically review, evaluate and reflect on the program practices
- System providing concrete information, based on structured observations and parent feedback, for improving programs for children and families

The DRDP has three components used to improve program quality in early care and education programs:

1. **Desired Result Developmental Profile** for each child enrolled in the program, completed within 60 days of enrollment. Profiles, completed by staff, are based on observation and family feedback.
2. All families complete annual **parent surveys**.
3. Observations of each room are conducted as part of **The Early Childhood Environment Rating Scale**. Each item in the rating instrument must receive a score of “4” or above. The program strives for an over-all rating of “5”.

Our program must do a **self-review** each spring based on the components above. An action plan to maintain or raise the quality of the program is developed.

Electronic Communication Free Zone

In the best interest of the families and children in our programs, our Preschool Programs are cell phone-texting-emailing free zones. We feel it is important for the teachers to be able to connect with parents at drop-off and pick up time and for parents to be able to focus on their child. Please complete your electronic conversations before entering the classroom.

CALIFORNIA STATE PRESCHOOL CSPP-CALIFORNIA STATE PRESCHOOL PROGRAM & CCTR-GENERAL CHILD CARE AND DEVELOPMENT

We have a number of CSPP/CCTR State subsidized spaces at Nesbit Puma Cubs, Little Footsteps, and Redwood Creek sites for children.

An eligible enrolling child's age must be on or before September 1, 2023.

Redwood Creek	CCTR 2-36 months & CSPP 2.9+
Puma Cubs	CCTR 2-36 months & CSPP 3.0+
Little Footsteps	CCTR 24-36 months & CSPP Age 2.9+

The spaces are available through our sub-contract with the San Mateo County Office of Education. Eligibility for the full-day state preschool program is based on need and income. The terms and conditions for eligibility in the subsidized component are established by the California Department of Education. We are required to request parent income and family information. Enrollment is based on eligibility and need priority rather than "first-come, first-served basis".

California State Preschool (CSPP) and General Child Care (CCTR) Eligibility & Enrollment Process

Applying For Subsidized Services

1. Each family interested in applying for subsidized services must complete a program waitlist application to begin enrollment. This can be found on the website, footstepschildcare.org under the Preschool Enrollment tab, "State Subsidized"
2. Once completed, the application for enrollment can be obtained from the Administrative Office Director of Programs.
3. The application can be completed and returned to the Director of Programs once the waitlist application is completed and ready for processing.
4. The family will be assigned an eligibility rank based on income and family size reported on the application.
5. Families will be contacted based on the identified priorities and ranking established by the State of California.
6. Additional documentation will be required to verify income and family size when a space is available.

Family Selection Process For Subsidized Services

When a family submits an eligibility wait list form, priority will be identified, and/or a ranking number will be issued based on the parent/guardian's initial reporting of their family size and gross income or other eligibility criteria. Based on the initial reporting of family size and income, the program staff will refer to the California Department of Education's income eligibility ceiling chart to issue a ranking number. Families will be enrolled based on priority and/or the lowest ranking first until all spaces are filled. When two or more families have the same ranking number, a child from a family whose primary home language is a language other than English will be enrolled first. If there are no children on the wait list from a family whose primary language is one other than English, the child on the waitlist the longest will be admitted first. To determine the admission order, public assistance recipients' grants shall be counted as income.

Our program maintains an eligibility wait list when spaces are filled. Families will be contacted based on the ranking number issued when the wait list form is submitted. Please contact the office to update your information if income and/or family size change after the wait list form submission. Based on the change(s) reported the program staff will update the ranking number as needed. Families will be contacted as soon as spaces become available.

Eligibility Criteria

The parent or guardian is responsible for providing documentation of the family's total countable income, and the contractor must verify the information. The parent(s) will provide the total countable income for all individuals counted in the family size. The contractor will calculate income based on the income information reflecting the family's current and ongoing income.

Eligibility for the full-day program is based on documentation and verification of at least ONE of the following:

1. The family has a child who is in Child Protective Services **OR** is at risk of abuse, neglect, and/or Exploitation.
2. The family has a child with exceptional needs that are below the income eligibility threshold.
3. Three- or four-year-old children who are not enrolled in a state-funded Transitional Kindergarten program.
 - a. Eligible children with the lowest income according to the income ranking on the most recent schedule of income ceiling eligibility table shall be enrolled first.
 - b. If two or more families have the same income ranking according to the most recent schedule of income ceiling eligibility table, the child that is identified as a dual language learner shall be enrolled first. If there are no children who are identified as dual language learners, the child who has been on the waiting list for the longest time shall be admitted first.
4. After all eligible children have been enrolled, shall be children from families whose income is no more than 15 percent above the income eligibility threshold.
5. Three- and four-year-old children from families that meet eligibility criteria without having a need for services. Families will be enrolled based on income ranking order, lowest to highest, and within income ranking order, enroll four-year-old children before three-year-old children.
6. A CSPP/CCTR site operating within the attendance boundaries of a qualified **free and reduced-price meals (FRPM)** school, in accordance with EC Section 8217, may enroll any three- and four-year-old children whose families reside within the attendance boundary of the qualified elementary school. These children shall, to the extent possible, be enrolled by lowest to highest income.

Upon establishing initial eligibility or ongoing eligibility for services, **a family shall be considered to meet all eligibility and need requirements for those services for no less than 24 months** before having their eligibility or need to be recertified and will not be required to report changes to income or other changes for at least 24 months. The program will notify the family in writing within the final thirty days of the initial certification to prepare for upcoming recertification. The recertification appointment will occur within 50 days after the initial certification ends.

When a family with full-day service voluntarily requests a reduction to their family fee (if applicable) by reporting a change such as family income, days and hours of care needed, or family size, the contractor must reassess the family fee. The parent must provide documentation to support the reported change. The program will issue a Notice of Action within ten (10) business days of receiving appropriate documentation informing the family of the program's decision.

The family fee reduction takes effect on the first of the month following the receipt and approval of the required supporting documentation. This documentation may not be used to make other changes to the family's service agreement.

Families in full-day CSPP/CCTR classrooms are certified for 24 months beginning with the first day of certification.

The program will provide a current Schedule of Income Ceiling at 100% of the State Median Income (SMI) with the Family Enrollment Packet. The program will provide the parent with a copy of the income calculation worksheet to verify income eligibility and the maximum income threshold for their family size. The family must notify the program within 30 calendar days of any income that causes the family's income to go above the maximum income threshold. The program will recalculate the family's income to determine the family's continued eligibility for services.

Notice Of Action (NOA)

The Notice of Action (NOA) is a written notification of your childcare status with the state-subsidized program for approval, change, and termination of services.

Parent/Guardian will receive a Notice of Action (NOA) at

- Initial certification to approve or deny services
- Recertification
- Changes in service
- When your family fee payment is delinquent
- Disenrollment from the program

Parent Appeal information

- Notice of Action - Whenever the program makes changes to childcare services (for example, by approving or denying services, by changing the approved hours of care, or by terminating services), the agency must notify you by giving you a document called a "Notice of Action" (NOA).
- The NOA will inform you of the type of action taken, the reasons for the action, and the date when the action shall take effect.
- If the parents(s) do not agree with the action taken on the NOA, you must file a notice to appeal the action within fourteen (14) days from the date the NOA is given or nineteen (19) days if mailed to the home.
- Your Notice of Action provides you with specific instructions for appealing an action. Please keep a copy of your NOA.
- If you, the parent, disagree with the local hearing appeal decision, the parent may appeal for a state review of the local hearing decision.
- The [Parent Appeal Information Pamphlet](#) (attached) provides information regarding the two levels of appeal described above.
- Please see your Notice of Action for specific instructions on how to appeal.

Approval For Services

Families must first meet the program's specific California Department of Education (CDE) or Department of Social Services Community Care Licensing (CCL) approved requirements for eligibility.

Families are certified for services for twenty-four (24) months at initial enrollment. A Notice of Action (NOA) will be issued on the enrollment status.

Child Age Eligibility

- **CCTR-** Children under three years old and have not yet had their third birthday.
- **CSPP-eligible three-year-old children** as those who will have their third birthday on or before December 1 of the fiscal year in which they are enrolled in a California state preschool program. Children who have their third birthday on or after December 2 of the fiscal year may be enrolled in a California state preschool program on or after their third birthday.
- **CSPP-eligible four-year-old children** as those who will have their fourth birthday on or before December 1 of the fiscal year in which they are enrolled in a CSPP.

Please note that children who are age-eligible for Transitional Kindergarten may choose to enroll in the state preschool program if that is the best fit for the family.

Children With Exceptional Needs

Children with an exceptional need for state preschool eligibility are defined as having an active individualized family service plan (IFSP) for children ages 0-3 or an individualized education plan (IEP) for children ages 3-22.

Children with exceptional needs are eligible for the state preschool program as a separate eligibility category. Only children with a current IFSP or IEP may be enrolled in the program under this category. Any other children in the family who do not meet the definition of exceptional needs may be enrolled

based on any other eligibility category for which the family is eligible.

To qualify for full-day CSPP/CCTR, families must establish a need for service; however, after the program has enrolled all eligible families meeting the need criteria, the program may enroll families that do not have a need.

The program must set aside a percentage of the program's state-funded enrollment reserved specifically for children with exceptional needs, including children with severe disabilities, to be enrolled in income order, but without regard to enrollment priorities until set aside is met. No other children without exceptional needs can be enrolled within this set-aside category.

Once the program has met the percentage of children with exceptional needs required in the set-aside category, age-eligible children with exceptional needs and whose families are income-eligible will receive second priority for enrollment. Once all eligible families have been enrolled and there are no additional families on the waitlist, additional children with exceptional needs whose families are over income may be enrolled.

Homelessness

If the basis of eligibility is homelessness, one of the following is required:

- To meet the eligibility requirements, the family must obtain and provide documentation, which includes either of the following:
 1. A written referral dated within three months before the application for services from one of the following entities, which identifies the child as experiencing homelessness.
 - a) A legal, medical, or social services agency.
 - b) A local educational agency liaison for children and youth experiencing homelessness.
 - c) A Head Start program or
 - d) An emergency or transitional shelter

The referral shall include the following:

 - a) The name of the identifying entity.
 - b) The physical address.
 - c) Telephone number; and
 - d) Title and signature of the person identifying the family as experiencing homelessness.
 2. A written parental declaration, signed under penalty of perjury, that the family is experiencing homelessness

The McKinney-Vento Act defines homeless children and youths as individuals who lack a fixed, regular, and adequate nighttime residence and includes:

- Children and youths who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason.
- Children and youths who may be living in motels, hotels, trailer parks, or camping grounds due to a lack of adequate alternative accommodations.
- Children and youths living in emergency or transitional shelters or are abandoned in hospitals.
- Children and youths who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings.
- Children and youths who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; or
- Migratory children who qualify as homeless because they are children who are living in similar circumstances listed above.

FAMILY SIZE

The family size or composition of the family size is initially determined by the number of adults and children identified on the waitlist application. The program will request documentation to substantiate the reported family size when a space is available.

“Family” means the parents and the children for whom the parents are responsible, who comprise the household in which the child receiving services is living.

“Parent” means a biological parent, adoptive parent, stepparent, foster parent, caretaker relative, legal guardian, or domestic partner of the parent as defined in Family Code section 297 or any other adult living with a child who has responsibility for the care and welfare of the child.

The parent shall obtain and provide supporting documentation regarding the number of children and parents in the family as listed on the application for service.

The number of children shall be documented by providing any **ONE** of the following documents, as applicable:

- Birth certificate or other live birth records.
- Court order regarding child custody
- Adoption documents.
- Records of Foster care placements
- School or medical records
- County welfare department records or
- Other reliable documentation indicating the relationship of the child to the parent

SELF-CERTIFICATION, ABSENT PARENT, OR SINGLE PARENT STATUS

If only one parent has signed an application and the information indicates the child(ren) in the family has another parent whose name does not appear on the application, then the parent who has signed the application shall self-certify the presence or absence of that parent under penalty of perjury and shall not be required to submit additional information documenting the presence or absence of the second parent.

WHAT IS COUNTABLE INCOME?

Total countable income means all income of the individuals counted in the family size.

For Example:

- Gross wages or salaries, commissions, overtime, tips, bonuses, gambling, or lottery winnings.
- Wages for migrant, agricultural, or seasonal work.
- CalWORKs cash aid.
- Gross income from self-employment means fewer business expenses except wage draws.
- Disability or unemployment compensation.
- Workers' compensation.
- Spousal support, child support received from the former spouse or absent parent, or financial assistance for housing costs or car payments paid as part of or in addition to spousal or child support.
- Survivor and retirement benefits.
- Dividends, interest on bonds, income from estates or trusts, net rental income or royalties.
- Rent from a room within the family's residence.
- Financial assistance received for the care of a child living with an adult who is not the child's biological or adoptive parent.
- Veterans' pensions.
- Pension or annuities
- Inheritance.
- Allowances for housing or automobiles provided as part of compensation.

- Insurance or court settlements for lost wages or punitive damages.
- Net proceeds from the sale of real property, stocks, or inherited property; or
- Other enterprises for gain

If the basis for eligibility is employment income, documentation shall include but not be limited to...

- A release authorizing the program to contact the employer(s) that includes, to the extent known, the employer's name, address, telephone number, and usual business hours.
- Payroll check stubs or independently drafted letters from the employer, or other records of wages issued by the employer from either month of the two-month window immediately preceding the initial certification or the recertification of eligibility for services.
- Income documentation is for either month of the two-month window preceding certification. The program has the right to request additional documents to determine eligibility.

A release authorization allows the program's designated staff to contact the employer(s). The release authorization includes **Employer's name, address, telephone number, and usual business hours.**

Self-Employment Income

If the basis of eligibility is self-employment, you shall obtain and provide a combination of documentation necessary to establish current income from either month of the two-month window immediately preceding the initial certification or recertification of eligibility for services. The documentation shall consist of a self-certification of income and as many of the following types of documentation as necessary to determine income:

- An independent drafted letter from a source of income or
- A copy of the most recently signed and completed tax return with a statement of **current estimated income** for tax purposes **OR**
- Other business records, such as ledgers, receipts, or business logs

If documentation of income is not possible, you may provide a self-certification of income.

FAMILY FEE

Families receiving full-day service will be assessed whether a family fee applies based on income and family size. The family fee is a flat monthly full-time or part-time fee based on the hours of care certified for the month. Families with a certified need of less than 130 hours per month will be assessed a part-time fee, while families with a certified need of 130 or more hours per month will be assessed a full-time fee. The agency can charge a part-time fee or the cost of care (calculated by multiplying the days of enrollment by the rate), whichever is less, depending on the number of hours of certified enrollment for the month. Families assessed with a total family income below the 75% State Median Income (SMI) will not be assessed a family fee. For all families with a total family income above the 75% SMI will be charged a family fee based on the Family Monthly Fee Schedule provided by the CA. Department of Education.

The family fee must be paid at the beginning of each month before services are rendered. No adjustment is made for absences from the program. When a family has more than one child enrolled in CSPP and/or childcare programs administered by the California Department of Social Services (CDSS), the family fee must be assessed based on the family's child who is certified for the greatest number of hours. Family fees shall be considered delinquent after seven (7) calendar days from the date the fees were due. A Notice of Action shall be issued for a delinquent family fee.

Childcare services shall be terminated 14 days from the Notice of Action (NOA) date unless all delinquent fees are paid, or a payment plan has been established. before the end of the period for NOA appeal. If the NOA was mailed to the family, the termination would occur after 19 days. Upon termination of services for nonpayment of delinquent fees, the family shall be ineligible for childcare and development services until all

delinquent fees are paid. The program shall accept a reasonable payment plan to pay delinquent fees. Childcare service shall continue to be provided to the child, provided the parent(s) pays current fees when due and complies with the provisions of the repayment plan.

The fee for the initial certification is due upon enrollment. For new family fees due as the result of recertification or updates to the family file, a NOA must be issued to the family showing the new fee to be imposed and contain an effective date of either 14 or 19 calendar days after service of the NOA, depending upon whether the NOA was personally served or mailed to the family. The fee is due on the first of the month following the effective date of the NOA.

When the initial enrollment is not on the first day of the month, the contractor can assess a fee based on certified hours for the partial month and another fee for each subsequent month based on certified hours as documented in the application for services. For example, a family works 40 hours per week or full-time, and their initial enrollment date is May 20. For the month of May, the family will utilize less than 130 hours. In this example, the family will be assessed a part-time fee for May and a full-time fee for each subsequent month of service. If a new family fee is assessed, the fee will become effective on the first day of the month following the issue date of the NOA.

CREDITS FOR FEE PAID TO OTHER PROVIDERS

This section shall apply to childcare and development services provided by someone other than the contractor:

- (a) When a contractor cannot meet all of a family's needs for childcare for which eligibility and need have been established, the contractor shall grant a fee credit equal to the amount paid to the other provider(s) of these childcare and development services.
- (b) The contractor shall apply the fee credit to the family's subsequent billing period. The family shall not be allowed to carry over the fee credit beyond the family's subsequent fee billing period.
- (c) The contractor shall obtain copies of receipts or canceled checks for the other child care and development services from the parent each month. The copies of the receipts or canceled checks shall be maintained in the contractor's fee assessment record.

WHEN FAMILIES VOLUNTARILY REQUEST A REDUCTION OF THE FAMILY FEE

A family may voluntarily request a reduction to their family fee by reporting a change such as family income, days and hours of care needed, or family size. The program must reassess the family fee by requesting documentation to support the reported change. The family fee reduction takes effect on the first of the month following the receipt and approval of the required supporting documentation. **This documentation may not be used to make other changes to the family's service agreement.**

A Notice of Action (NOA) must be issued immediately upon receipt and approval of the required supporting documentation so that the new family fee will become effective on the first day of the month that follows the issue date of the NOA. For example, if an NOA is issued on July 28, 2023, the effective date of the reduced fee would be August 1, 2023.

When a family is initially certified or recertified based on income eligibility:

Within thirty (30) calendar days, the family shall report changes to ongoing income that causes their adjusted monthly income, adjusted for family size, to exceed ongoing income eligibility.

Once determined and certified as income eligible for services, families remain income eligible until their adjusted monthly income exceeds 100% percent of the most recent SMI, adjusted for family size.

The program must notify parents at the time of initial certification, and at recertification, the dollar amount that equals 100 percent of the SMI, based on their family size. Parents must report when their family income exceeds the 100%-dollar amount for their family size.

When family income exceeds the identified 100% of SMI for the family size, the program must dis-enroll the family and issue a Notice of Action (NOA) citing the family has exceeded 100 percent of the SMI adjusted for family size.

Specifically, the program must inform the parent in writing of the maximum adjusted monthly income the family could earn, based on the family size most recently certified before the family is no longer income eligible for services. To do this, the program must provide the family with a copy of the most recent Schedule of Income Ceilings (100 percent SMI) for Recertification,

Families with incomes up to 15 percent over the income threshold are eligible for state preschool; however, the program is limited to enroll no more than 10 percent of the total contract under this provision. The families under this provision must provide a Need for Services.

DOCUMENTATION OF NEED FOR SCHOOL AGE CARE

Upon establishing initial eligibility or ongoing eligibility for services, a family shall be considered to meet all eligibility and need requirements for those services for no less than 24 months before having their eligibility and need to be recertified. The family shall not be required to report changes to income or other changes for the 24 months.

Each adult counted in the family size must have a need for childcare services. If it is determined by the enrollment specialist that there is no documented need for subsidized childcare, a Notice of Action to deny or terminate services will be issued. The following are the categories of documentable needs for childcare. However, after the program has enrolled all eligible families meeting the need criteria, the program may enroll families that do not have a need for services.

At any time during the family's certification period, a parent may request an increase or decrease in the certified schedule. Requests to change the certified hours must be provided in writing. If the request is to decrease hours, the program will notify the family of the right to maintain the current certified schedule.

1. At Risk of Abuse or Neglect - When the basis of need is At Risk of Abuse or Neglect, a child who a legally qualified professional has identified in a legal, medical, social services agency, or emergency shelter as being at risk of abuse, neglect, or exploitation, and referred for childcare and development services. At-risk families may receive a 24-month fee exemption when a legally qualified professional from a legal, medical, social services agency, or emergency shelter specifies in the referral that it is necessary to waive the family fee. For families with a fee exemption, income information will not be required, and fees will not be assessed or collected. If the referral from a legally qualified professional (a legal, medical, social services agency or emergency shelter) does not waive the fee, the family must provide income documentation. Fees must be assessed and collected, as applicable, based on the most recent fee schedule issued by the CDE, CDSS. Fee assessment and collection will begin on the first day of enrollment unless the fee is waived.

2. Child Protective Services (CPS) - When the basis of need is CPS, a written referral from a legal, medical, social service agency, or emergency shelter is required. The written referral shall include a statement that the child is at risk of abuse or neglect and that childcare services are needed to reduce or eliminate that risk. CPS shall certify that the child is receiving protective services, and that childcare is a necessary part of the CPS plan. CPS families may receive a 24- month fee exemption when a legally qualified professional from a legal, medical, social services agency, or emergency shelter specifies in the referral that it is necessary to waive the family fee.

Note: A "legally qualified profession" means a person licensed under applicable law and regulation of the State of California to perform legal, medical, health, or social services for the general public.

3. Employment - When the basis for need is employment, means of verification may include but is not limited to Pay Stubs, Record of Wages, Proof of Self-Employment, and/or Tax Returns, as well as a completed Employment Verification form.

4. Vocational training or participation in an educational program - When the basis of need is training,

childcare services may be authorized for six years from the initiation of services. Twenty-four-semester units, or its equivalent, after attaining a bachelor's degree. A parent may request additional hours for study time and travel to support their educational needs with appropriate documentation. At recertification, the continuation of services is contingent upon the parent's adequate progress. To verify adequate progress, the program will request additional documentation to assess the progress made. In a graded program, the parent must achieve a minimum of a 2.0-grade point average in the last enrollment period. In a non-graded program passing at least 50% of the class requirements or meeting the institution's standards. If adequate progress has been made, then that parent can recertify under this need.

5. Seeking employment - When the basis for need is seeking employment, the participant may be approved to seek employment for 6.5 hours per day and no more than 32.5 hours per week.

6. Family is Experiencing Homelessness – A family experiencing homelessness may establish both Eligibility and Need. The family must obtain and provide documentation which includes: a referral dated within three months before the application for services from one of the following: A legal, medical, or social services agency; a local educational agency liaison; a Head Start program or an emergency or transitional shelter OR a written parental declaration signed under penalty of perjury that the family is experiencing homelessness. If the Need is a family experiencing homelessness, services shall be as requested by the parent and shall occur no more than five days per week for less than 30 hours per week.

7. Seeking permanent housing for family stability – When the basis of need is seeking permanent housing, the participant may be approved to seek permanent housing for no more than 32.5 hours per week for consecutive working days, Monday to Friday.

8. Incapacitation - When the basis of need is Incapacitation, childcare and development services shall be based on the documentation provided by the legally qualified health professional, which shall include a statement that the participant is incapacitated and incapable of providing care and supervision for the child. The documentation must identify the extent to which the participant is incapable of care and supervision. Childcare cannot exceed 50 hours per week.

Eligibility for subsidized spaces is not based on “first-come, first-serve” but is determined by CDE or CDSS guidelines.

FAMILY'S RIGHT TO VOLUNTARILY REPORT CHANGES

A family may at any time voluntarily request a reduction in their service level or a re-evaluation of their family fee. Before a contractor may take any actions, a parent shall submit a written request for the requested changes, which may include the days and hours per day requested, the effective date of a proposed reduction of service, or the parent's income status change. The parent must acknowledge in writing that he/she understands that the parent may retain their current certified childcare service level.

Upon receipt of the parent's written request, the contractor shall notify the family in writing of the parent's right to continue to bring their child pursuant to the original certified service level and collect documentation to support the changes requested, and not later than ten business days after receipt of applicable documentation, issue a Notice of Action for the requested change in service level. No other changes to the service agreement shall be made using the received information.

Fraud Policy

The California Department of Education requires the program to take reasonable action to recover funds due to fraud. Fraud is the submission of false or misleading information or documentation to obtain subsidized childcare services. This includes but is not limited to providing false or misleading information or statements, altering documentation, or failure to report income exceeding 100% SMI, need for services, family size, or family information. If a determination is made that fraudulent activity has occurred, one or more of the following actions will take place:

The participant's services will be terminated, and the program may no longer serve the family under this contract.

The case will be referred to the appropriate agency for investigation and possible prosecution.

Footsteps Child Care: Wellness Policy

BACKGROUND

Our mission is to provide infants, children, and their families with quality programs in a safe, nurturing, and enriching environment. One of our goals is to create an environment ensuring the optimal health of your children and of our staff.

Child Care programs, such as Footsteps Child Care, are uniquely positioned to contribute to improving the nutritional health and physical activity of children and adolescents. Footsteps Child Care is an important venue to improve health behaviors and outcomes for many reasons:

- Our programs occur during a time of day when many children are likely to be sedentary if not given active options.
- Children are at a developmental stage when they are forming health habits they will carry into adulthood. Promoting healthy behaviors in after school programs can have benefits for a lifetime.
- Our sites offer a supportive, safe environment in which children can feel comfortable trying new activities and building skills.
- Our staff is caring, knowledgeable, and well trained – they serve as role models that positively influence children’s health and nutrition choices.¹

Footsteps Child Care must also ensure the wellness of our staff. Like many Americans, our staff spends much of their waking hours at work. Therefore, creating a healthy environment for our employees is an important way to improve their health.

In order to ensure that we maximize the benefits of our programs, we have created a Wellness Policy to guide our efforts to create a healthy environment for youth, their families, and our staff. It includes guidelines regarding nutrition, physical activity, and promotion of healthy behaviors for your children while they are at Footsteps Child Care, as well as guidelines for the food and physical activity environments for staff at our sites. Using these guidelines, we seek to ensure that all youth and staff have access to:

- Healthy foods and beverages.
- Regular, fun, and inclusive physical activity (or, for staff, the flexibility to get activity on their own).
- Appropriate and understandable health information; and
- Positive, healthy role models.

We recognize that healthy eating and physical activity are not all or nothing decisions—they are about balancing choices. Our goal is to make the healthy choice the easy choice.

NUTRITION GUIDELINES

These guidelines are meant to inform food and beverage selection for all program-related activities, including snacks, beverages, and meals provided to youth, as well as food and drinks served at staff meetings and events.

YOUTH NUTRITION GUIDELINES

These guidelines cover regular snacks and meals served to youth at Footsteps Child Care. Monthly birthday celebrations are excluded from strictly following these guidelines. Likewise, food served or purchased by youth off-site may not meet the criteria. We aim to implement the guidelines fully over

the next 12 months. Staff at each site will be responsible for implementation, with periodic checks by the Executive Director.

Food Served to Youth at Footsteps Child Care. Food items served to youth at Footsteps will meet the following criteria:

For infants under 1 year:

- We encourage breastfeeding. Mothers may express milk into bottles to be served to their infants while they are at Footsteps Child Care. For babies not breastfeeding, formula will be served following manufacturers' instructions.^{2,3}
- For infants who have begun to eat solid foods, we aim to introduce a wide variety of soft, safe foods, including fruits and vegetables and lean meats, as appropriate. We aim to offer new foods one at a time to check for allergic reactions.⁴
- Avoid serving cow's milk, as it is not recommended for children under 1 year of age.⁵

For young children 1 to 2 years old:

- Provide a variety of foods, including fruits and vegetables, grains, dairy products (including whole milk), and lean meats.
- Fat content will not be restricted, as very young children need additional calories from fat to ensure growth and development.⁶

For children 2 years of older:

- For children aged 2-3, no more than 30-40% of total calories are from fat; for children aged 4 and above, no more than 25-35% of total calories are from fat.
- For children aged 2 and above, food items will have no more than 10% of total calories from saturated fat.
- For children aged 2 and above, food will contain no trans-fat.⁷
- For children aged 2 and above, no more than 35% of calories are from total sugars, with the following exceptions:
 - Yogurt and milk with less than 25g of sugar per 8oz serving.⁸
- For children aged 2 and above, snacks should have 200mg of sodium or less and entrées/meals should have 480mg of sodium or less per serving.⁹

In general, we will aim to:

- Offer appropriate portion sizes and regular meal/snack times to prevent both hunger and over-eating. Toddler portion sizes are about one-quarter of adult serving sizes. For children 4-8, portion sizes should be about one-third of adult serving sizes. For children 9 years and old, portion sizes about the same size as for adults.¹⁰
- Focus on whole grains (ensure $\geq 50\%$ of grains served are whole grains).
- Emphasize colorful and varied produce. Include at least one serving of fruits or vegetables at each snack (can be fresh, frozen, canned or dried; ensure no items with added sugar). Vary produce offered to maximize nutrient diversity. At meal times, about half of plate should be

produce, following USDA's "My Plate" initiative¹¹. Whenever possible, purchase produce that is grown locally.

- Vary food items and meals served, and encourage youth to try different foods, especially fruits and vegetables.
- Focus on lean proteins such as egg whites, poultry, fish, and soy products.
- Select healthy fats (mono- and poly-unsaturated fats and omega-3 fatty acids) over unhealthy fats (saturated fats).
- Avoid foods that are deep fried, par fried, or flash fried.
- Minimize sweet baked goods (cookies, cake, etc.) served. Any sweets that are served will be trans-fat-free.
- Accommodate dietary restrictions due to allergies, religion, or culture.
- Encourage students to participate in selecting, preparing, and cleaning-up food, as appropriate.

MyPlate is part of a larger communications initiative based on 2010 Dietary Guidelines for Americans to help consumers make better food choices. The guidelines recommend making about half of your plate fruits and vegetables.

Beverages Served to Youth at Footsteps.

For infants and children less than 2 years of age:

- We encourage breastfeeding for infants less than 1 year old; those not breastfeeding will be served formula following manufacturers' instructions (see above). Children 12 months to 2 years will be served water and whole milk.

For children aged 2 year and above, we will:

- Offer healthy beverages, including low- or non-fat milk, and non-carbonated water.
- Always have water easily available at no cost to students. Serve water in bulk (e.g., in a pitcher) during snack and meal times.
- Serve only 1% or fat-free milk. Limit milk consumption to 12-24 oz. per day.
- Never serve beverages that contain caffeine or non-nutritive sweeteners.

¹¹ See <http://www.choosemyplate.gov/> for more information on this initiative.

PHYSICAL ACTIVITY GUIDELINES

PHYSICAL ACTIVITY FOR YOUTH

To ensure that youth meet national recommendations for daily physical activity, we will:

- Dedicate at least 20% or at least 30 minutes of morning and after-school program time to physical activity (60 minutes for a full day program).
- Ensure that daily physical activity time includes age-appropriate aerobic, muscle- and bone strengthening activities.¹²
- Provide physical activities in which students engage in moderate to vigorous aerobic activity for at least 50% of the physical activity time.
- Provide activities that help children strengthen muscles, such as tug-of-war, push-ups, sit-ups), or climbing on play structures.
- Include a variety of physical activity options that are fun, promote learning and skill building, and are accessible and enjoyable to students of all abilities. Ensure that activities are inclusive.
- Provide short physical activity break between and/or within learning or sedentary activities to invigorate children and eliminate long periods of sitting, and to incorporate physical activity into transition time.
- Select field trips and off-site events that promote physical activity and introduce youth to new ways to stay active.
- Encourage students to participate in selecting, organizing, and leading activities, as appropriate.

In addition, we seek to reduce the amount of time youth are sedentary. We will:

- Limit time spent watching television or movies, playing video games and digital devices (computer, etc.) to less than one hour per day to allow for other activities. Exceptions include video games that incorporate moderate to vigorous physical activity (e.g., Dance-Dance-Revolution) and use of computers and other devices for schoolwork.

PARENT EDUCATION NIGHT

Footsteps Child Care will offer a health education workshop in the evening for parents. Dinner and child care will be provided free of charge. In addition, parents who attend will receive an incentive (see list of incentives) for the month in which they attend.

Topics may address nutrition, fitness (e.g., activities, muscle strengthening, flexibility), stress reduction, weight loss/management, tips for ways to incorporate physical activity into busy schedules), youth focused health topics (e.g., nutrition and physical activity for youth, social/emotional development, skills to increase healthy behaviors in youth), and/or healthy cooking.

¹² See <http://www.cdc.gov/physicalactivity/everyone/guidelines/children.html> for examples of age-appropriate activities.

FOOTSTEPS CHILD CARE SUN SAFETY GUIDELINES

The following information provides sun safety guidelines for parents and introduces California's laws related to sunscreen application in a school or out of school program environment.

Skin Cancer Facts

Skin is the largest organ of the body and skin cancer is the most common of all cancers.

- It accounts for nearly half of all cancers in the United States
- More than 3.5 million cases of basal and squamous cell skin cancer are diagnosed in this country each year
- The Skin Cancer Foundation reports that one blistering sunburn in childhood more than doubles a person's chances of developing melanoma later in life

Source: American Cancer Association

<http://www.cancer.org/cancer/cancercauses/sunanduvexposure/skin-cancer-facts>

Footsteps Child Care Recommends:

- All families are asked to give Footsteps written permission annually to apply sunscreen to their child while in our care, considering any allergies. Older children may apply sunscreen themselves.
- Parents apply sunscreen every morning to their child's skin. Applying it to any part, which will be exposed to the sun (i.e., face, arms, and legs)?
- Sunscreen labeled with your child's name should be in your child's school bag.
- Your child should reapply sunscreen to exposed areas mid-day, either when transitioning into Footsteps after school or at lunch. For younger children staff will reapply sunscreen when needed.

Throughout the year, Footsteps Child Care will have dedicated days focused on sun safety and education.

The American Cancer Association Recommends:

- Avoid direct exposure to the sun between 10 a.m. and 4 p.m.
- Teach children the shadow rule: if your shadow is shorter than you are, the sun's rays are at their strongest.
- Seek shade, especially in the middle of the day when the sun's rays are strongest.
- Follow the Slip! Slop! Slap! and Wrap!® rules:

Slip on a shirt: Cover up with protective clothing to guard as much skin as possible when you are out in the sun.

Slop on sunscreen: Use sunscreen and lip balm with broad-spectrum protection and a sun protection factor (SPF) of 30 or higher. Apply a generous amount of sunscreen (about a palmful) to unprotected skin at least 30 minutes before outdoor activities. Reapply every two hours and after swimming, towel dry, or sweating. Use sunscreen even on hazy or overcast days.

Slap on a hat: Cover your head with a wide-brimmed hat, shading your face, ears, and neck. If you choose a baseball cap, remember to protect your ears and neck with sunscreen.

Wrap on sunglasses: Wear sunglasses with 100% UVA and UVB absorption to provide optimal protection for the eyes and the surrounding skin.

State Law aligns with Sun Safety Guidelines

In 2002, the California state government amended the Education Code as follows: **Section 35183.5 (b)**

- 1) Each school site shall allow pupils the use of sunscreen during the school day without a physician's note or prescription.
- 2) Each school site may set a policy related to the use of sunscreen by pupils during the school day.
- 3) For purposes of this subdivision, sunscreen is not an over-the-counter medication.
- 4) Nothing in this subdivision requires school personnel to assist pupils in applying sunscreen.

EFFECTS OF LEAD EXPOSURE

Children 1-6 years old are the most at risk for lead poisoning.

- Lead poisoning can harm a child's nervous system and brain when they are still forming, causing learning and behavior problems that may last a lifetime.
- Lead can lead to a low blood count (anemia).
- Even small amounts of lead in the body can make it hard for children to learn, pay attention, and succeed in school.
- Higher amounts of lead exposure can damage the nervous system, kidneys, and other major organs. Very high exposure can lead to seizures or death.

LEAD POISONING FACTS

- Buildup of lead in the body is referred to as lead poisoning.
- Lead is a naturally occurring metal that has been used in many products and is harmful to the human body.
- There is no known safe level of lead in the body.
- Small amounts of lead in the body can cause lifelong learning and behavior problems.
- Lead poisoning is one of the most common environmental illnesses in California children.
- The United States has taken many steps to remove sources of lead, but lead is still around us.

IN THE US:

- Lead in house paint was severely reduced in 1978.
- Lead solder in food cans was banned in the 1980s.
- Lead in gasoline was removed in the early 1990s.

LEAD IN TAP WATER

The only way to know if tap water has lead is to have it tested.

Tap water is more likely to have lead if:

- Plumbing materials, including fixtures, solder (used for joining metals), or service lines have lead in them.
- Water does not come from a public water system (e.g., a private well).

To reduce any potential exposure to lead in tap water:

- **Flush the pipes in your home**
Let water run at least 30 seconds before using it for cooking, drinking, or baby formula (if used). If water has not been used for 6 hours or longer, let water run until it feels cold (1 to 5 minutes).*
- **Use only cold tap water for cooking, drinking, or baby formula (if used)**
If water needs to be heated, use cold water and heat on stove or in microwave.
- **Care for your plumbing**
Lead solder should not be used for plumbing work. Periodically remove faucet strainers and run water for 3-5 minutes.*
