WELCOME TO FOOTSTEPS CHILD CARE, INC.
On behalf of the Board of Directors and staff, welcome!
We share a common goal - quality programming - creating a safe, trusting, and challenging environment where children are encouraged to pursue new and familiar interests, develop friendships, grow in confidence and independence, and continue to develop respect for themselves and others.

Footsteps Child Care, Inc. is a private, non-profit corporation governed by an Executive Board of Directors comprised of parents and guardians. Footsteps Child Care, Inc. offers safe, supervised, quality care, designed to meet the developmental and social needs of the children and youth enrolled.

Footsteps Child Care, Inc. currently operates eight programs; seven licensed through Community Care Licensing, in San Mateo County, most onsite at Belmont-Redwood Shores Schools, one off-site program located at the City of Belmont Parks & Recreation Community Center, one in San Mateo, and one in Redwood City.

This handbook outlines what to expect, and what is expected from you at Footsteps Child Care, Inc. If, after reading this handbook and attending the orientation, you have additional questions, please contact us so we can answer your questions.

MISSION STATEMENT

- We support and enhance the academic day by providing and creating opportunities for children to learn and experience new things through physical activity, social experience, hands-on participatory activity, and choice.
- The curriculum includes a variety of age and developmentally appropriate group and individual activities, both structured and non-structured.
- The program provides the children with the space and time to discover.
- We provide the children with supportive and encouraging staff, striving to assist children in developing and maintaining a positive self-image and encourage children to take responsibility for themselves and their actions while learning social skills, such as problem solving and cooperation with others.

ADMISSION POLICY
- We are non-discriminatory in admission, discrimination in all its programs and activities on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital or family status.
- A parent or guardian is required to attend an orientation before the child attends. If you cannot attend the scheduled orientation, please set up an individual orientation before your child’s first day.
- We will make every effort to include children with special needs in our program. Children who have special needs are considered for admission on an individual basis. The Site Director will meet with you before enrollment to determine if the program is the best environment for the child. Upon enrollment, staff and parents will meet regularly to monitor the child’s progress and discuss how best to support the child.
- It is sometimes necessary to redirect children and their families, especially if we do not have facilities or staff to work with the child’s needs. In these cases, the Site Director and the child’s parent or guardian will decide if the center can properly meet the needs of the child.
- Throughout the year, we will observe traditional celebrations, such as birthdays, Halloween, Christmas, Hanukah, Kwanza, Valentine’s Day, and Easter. MEDICAL INFORMATION
Footsteps Child Care expects a child to be picked up within 30 minutes of a parent or guardian being informed their child is exhibiting symptoms of illness. These symptoms include, but are not limited to, inability to participate in routine activities, needing more care than staff can provide, fever (100.4 F/38 C or higher with temporal thermometer), fever with behavior changes, difficulty breathing, uncontrolled coughing, diarrhea, vomiting, open sores, rashes, signs of infection, runny nose with colored mucus, or any other sign of communicable illness.

We insist, that as a member of the Footsteps community and for the well-being of all, families and staff participate in informing us of communicable illnesses and exposures as soon as possible, such as, but not limited to COVID, influenzas, noroviruses, head lice, strep throat, pink eye, fever over 100.4F/38C, hand-foot-mouth disease, chicken pox, or slapped check syndrome.

- Footsteps staff will observe the children daily upon arrival and throughout the day for signs of illness, injury, or other situations.
- Children MUST be fever free for 24 hours (without the use of fever reducing medication) before returning to the program. We classify a fever as a temperature of 100.4 F/38 C or higher.
- Families must update and confirm a child’s emergency and medical information is correct and updated before their first day of enrollment in camp.
- Please make sure your child’s immunizations are up to date before their first day of enrollment in School.
- Families are encouraged to speak to their healthcare provider about the flu or influenza vaccine for those over six months of age.

MEDICAL OR DENTAL EMERGENCIES
- If your child has an accident, such as a hard head bump or cut, the Site Director or staff will administer first aid. We attempt to build trusting relationships with the children, so a child feels comfortable informing staff about their physical well-being on a regular basis. Staff routinely notifies a family of an injury or accident when staff has seen, or staff has been informed about an injury or accident.
- If your child experiences a serious medical or dental emergency when in our care, we take the following steps:
  1. Call 911.
  2. Call the parent or guardian; if we are not successful, we call the names listed as emergency contacts.
  3. Call the listed doctor or dentist; and,
  4. Notify the Footsteps Child Care, Inc. Executive Director.
• If a child must be transported by ambulance, a staff member accompanies the child until a parent or guardian arrives. Emergencies of this nature are exceedingly rare; we make every effort to provide a safe program.

ILLNESS
• Please telephone your Site Office by the start of care on any day your child is absent.
• You should contact your child care site if your child becomes ill with a contagious illness. When a contagious or communicable disease has been reported (such as Pink Eye or Strep Throat), a notice is posted and sent to families.
• We understand the challenges working parents face; however, in the best interests of the children and staff in our programs, we must have a standard and reasonable framework determining why a child may not attend our program.
• If your child has been ill, we reserve the right to require a note from a doctor before your child returns to our program.
• If there is a difference of opinion between the parent, the personal physician, and the school, the judgment of the school must prevail.
• Do not send your child to the program with any of the following symptoms: fever, open wound, undiagnosed rash, vomiting, diarrhea, head lice, discharge from the eyes, severe cold, or sore throat.
• If a child becomes ill during child care, we:
  1. Place the child in a quiet area isolated area of a room to await pick up.
  2. Telephone you to pick up your child. Footsteps Child Care will expect a parent to pick up a child within 30 minutes if a child exhibits symptoms of illness during the day.
  3. If you cannot be reached, staff will call the emergency contact listed on the Emergency Form. Please make sure your Emergency Contacts are aware they are listed as an emergency contact and may be contacted in case of emergency when you are not available.
• Footsteps Child Care, Inc. cannot accept a child who becomes ill while at school during normal school hours.
• Children MUST be fever free for 24 hours (without the use of fever reducing medication) before returning to the program. We classify a fever as a temperature of 100.4 F/38 C or higher.
• If a child is sent home from one of our programs due to a contagious illness, they MUST remain home the entire following day or if fever is present for 24 hours, no exceptions.
• Diarrhea is a symptom of intestinal problems and can be very contagious. Mild diarrhea is the passage of a few loose or mushy stools. Moderate diarrhea involves many abnormally loose or frequent stools. Children with diarrhea may NOT remain in the program and must stay home until they are symptom free and have had a normal bowel movement.
• Rashes may be a minor allergy or a reaction to an insect bite and may be caused by chicken pox, impetigo, or other bacterial and viral infections. If a new rash appears, you must take your child to a doctor so that we may eliminate the possibility of infectious diseases.
• Conjunctivitis (Pink Eye) is very contagious and may be caused by bacteria or a virus. Children may not return to the program until 24 hours after antibiotic treatment has begun AND eyes must be clear and free of discharge. If discharge reappears after your child has returned to the program, we will send your child home.

HEAD LICE
Footsteps Child Care follows the Center on Disease Control recommendation; children diagnosed with live head lice do not need to be sent home early; they can go home at the end of the day, be treated, and return to class after appropriate treatment has begun.
Nits may persist after treatment, but successful treatment should kill crawling lice. Cases of head lice are predictable in children's programs. Head lice can be a nuisance, but they have not been shown to spread disease. Personal hygiene or cleanliness in the home or school has nothing to do with getting head lice.
  1. Please do routine lice checks on your child.
  2. Look for nits (eggs) as well as lice. The nits fix on the hair and do not flake off like dandruff. If nits are found, please let us know immediately.
3. You must treat your child and your house for lice before your child can return to child care. We will require proof of treatment.
4. When a case of lice is reported we will check all children, notify parents, treat the center; and,
5. We will recheck the children in a classroom for up to two weeks after the last reported instance of head lice.
6. For more information about head lice, contact your Site Director.

MEDICATION
Footsteps Child Care, Inc. will only administer medication prescribed by a health care provider such as a doctor, physician's assistant, or nurse practitioner. If your child is taking medication during child care hours, we can dispense medication only if it is in the original container and a completed and signed Medication Form is on file.

The Medication Form requires:
- Name of the medication and why it is being prescribed.
- Dose amount and time dose is to be administered; including any special instructions; and,
- Signature authorization of a parent or guardian and teacher.

Please be aware
- All prescription medications must be in their original prescription bottle, with the prescription label attached.
- Non-prescription medications-if the child's age and weight is not on the container must include a doctor's note verifying correct dosage amount. Non-prescription medications include over the counter items such as Tylenol, lip balm, lotions, hand sanitizer, and sunscreen.
- Child’s medication and dosage container is labeled with child's first and last name.
- The label on the medicine bottle must indicate a stop date for the medication; the stop date cannot exceed 12 months from the issue date.

Program Sites will ensure
1. All medications will be kept in a locked container or locked cabinet at the site. Medication requiring refrigeration will be kept in a designated, lockable container in the refrigerator that is clearly labeled "medication."
2. Epi-pens will be available during program hours and will be clearly marked with the child’s name. At the end of the program day, the epi-pen will be locked in the medicine cabinet.
3. Children/youth may administer prescription medications to themselves with written permission from the parents. The child/youth must be under adult supervision and away from other children.
4. Injectable medications will not be administered except for medications necessary to counteract severe allergic reactions or provide emergency glucagon for children/youth with diabetes. Additional and specialized training is required for any staff member responsible for the administration of injectable medications.
5. Any child, who has had a diagnosis, including asthma or diabetes, will require an individualized medical services plan on file.
6. Any child with Food Allergy or at risk of Anaphylaxis Emergency must have an updated Care Plan on file. This plan must include a physician/HCP authorization signature and the parent or guardian signature.

Please do not send medicine in a child’s lunch or backpack.
Please give medications directly to a Footsteps Teacher or to the Site Director.

COVID-Preparedness and Response
COVID-preparedness has been incorporated into Footsteps Child Care’s Emergency Plan for the organization and each site. A designated team comprised of the Deputy Director, State Preschool Manager, Site Directors, and a designated person from each program site coordinates preparedness, planning, and implementation. This is done with the guidance of San Mateo Public Health Department, California Public Health, the CDC, and under the guidance of Community Care Licensing.  
- Footsteps Child Care has conducted staff training on COVID prevention, symptoms, and transmission. Training has also included our annual hand hygiene, food handling safety, infection control, airborne precaution, and transmission borne precautions.  
- Families and staff will continue to follow the California Public Health Department, CDC, and San Mateo County Health Department guidelines.  
- A plan is in place to notify immediately a group or site’s families if symptoms develop or if COVID exposure occurs.  
- A separate sick area has been identified at each program site for isolation and plan for bathroom access for a sick child.  
- Families MUST pick up a sick child within thirty minutes of being informed their child is ill.  
- Footsteps Masking  
  - Indoors – Currently we do not require children to wear masks indoors, but if there is an uptick in the number of positive COVID cases at a site, we may require indoor masking. At this time, our staff are still required to wear masks indoors and we highly recommend that children do so.  
  - Outdoors – Children and staff has the choice whether they want to mask or unmask when outdoors. We highly recommend masking.  
- Masking While in Footsteps Vehicles - Anyone traveling in a Footsteps vehicle or traveling with Footsteps on a field trip will be required to wear a mask. Please send clean masks with your children daily.

COVID Direct Exposure or Outbreak
1. Footsteps is expected to report to the California Department of Public Health’s Shared Portal for Outbreak Tracking (SPOT) COVID-19 exposures and outbreaks, which is reported to the San Mateo County Health Department who contact Footsteps as needed.  
2. Footsteps communicates to families and staff when we receive notification of a direct exposure.  
3. Footsteps reports the exposure or outbreak to DSS Community Care Licensing.

We permit asymptomatic exposed children and staff to attend child care, regardless of their COVID vaccination status, with a strong recommendation for use of a well-fitting mask by children 2 years of age and older during the 10-day period after exposure.
Those exposed should monitor or be monitored for COVID symptoms and tested if symptoms develop.

- California Department of Public Health recommends exposed persons to test on day 5 or later after exposure.
- In addition, they may consider testing upon notification of exposure. It is also recommended to consider wearing a well-fitting mask around others for 10 days from the date of the last contact.

If one tests positive for COVID, isolation recommendations

- Stay home for at least 5 days.
- Isolation can end after day 5, if symptoms are not present or are resolving and a test performed on day 5 or later is negative.
- If unable to test or choosing not to test, and symptoms are not present or are resolving, isolation can end after day 10.
- If fever is present, isolation should be continued until the fever resolves.
- If symptoms, other than fever, are not resolving continue to isolate until symptoms are resolving or until after day 10.
- Per CDPH masking guidance, it is strongly recommended that persons wear a well-fitting mask around others for a total of 10 days, especially in indoor settings
- Consult with the healthcare provider as needed.

Collaborating with the school district with this system provides the children the continuity and consistency children need throughout the day to be safe, respectful, healthy, and to learn and practice making appropriate choices.

The main tenets of PBIS

- Trust and communication across families, staff, and children
- Staff teaches and models how to treat others with respect
- Staff uses systems for frequent praise and encouragement
- Children know the routines and expectations for behavior, so they are empowered community members
• Staff plans engaging, relevant learning experiences for children
• Children experience voice and choice as they learn.

For more PBIS information - https://www.pbis.org/

No corporal punishment or violation of personal rights is allowed at any of our sites at any time.

If the staff is unable to resolve a problem with a child’s behavior (such as chronic aggressive, abusive, disturbing, or destructive acts), the Site Director will:
• Request a conference with the parent or guardian to discuss the problem or situation. Together, a plan of action will be instituted to manage the problem.
• If the behavior or situation continues, or there is no improvement, the Site Director will inform the parent or guardian that the child's behavior continues to be a problem and will request a conference.
• Site Director will apprise and consult with the Executive Director or Deputy Director concerning the situation, action taken, and plans of corrective action.
• If the problem cannot be resolved, the Site Director will give the Parent or Guardian a notice of dismissal, in writing. This dismissal notice can be immediate if the situation warrants; especially if involves a child violating the personal rights of others (other children, staff, parents, themselves, etc.).

Parents and guardians are expected to adhere to all rules and regulations of our program. We request parents and guardians do not discuss problems, concerns, or confidential situations in front of children or other adults. Instead, parents are encouraged to make an appointment to speak with the Site Director to discuss any problems, concerns, or suggestions.

Progressive Discipline
• When a child is having ongoing behavior difficulties, a predetermined set of consequences, with the parent's notification, may be instituted. Consequences are explained in advance. The purpose of progressive discipline is to help the family understand the severity of the difficulty in advance and encourage the family to collaborate with the staff.
• The staff and parent or guardian has the right to request a conference at any time.
• Footsteps Child Care, Inc. will not tolerate behavior of an aggressive or violent nature to other children, staff, or to anyone who is on the premises of a Footsteps Child Care, Inc. program. This includes bullying, teasing, threats, or taunting.
• Families are requested not to confront another child or family regarding an issue but should utilize staff to help resolve conflicts or difficulties.
• Footsteps Child Care, Inc. reserves the right to refuse service.

Children who compromise the safety of the children and staff will be suspended or removed from the program. Other instances when child care services may be terminated, and the child removed from the program:
• A family or child’s failure to comply with Footsteps Child Care’s policies and procedures, including health mandates and guidelines, procedures, and protocols as grounds for suspension or termination.

GENERAL PROGRAM COMPONENTS

**AM Program** We provide before school care beginning at 7:00 AM. Morning activities include outside play, quiet activities, art area, game area, homework space, group time, and dismissal to school.

**PM Program** The program provides children with snack, homework time, outside activity time, small group time, activities that include art, crafts, science, music, drama, cooking, sports and games, time for socialization, Kids Clubs, specialty classes and a variety of group activities to encourage discovery and exploration. All care for the elementary sites ends at 6:15 PM.

**Homework** Homework is a habit a child needs to practice and learn to complete daily and to along with learning organization and time management skills. To support children's daily homework, Footsteps Child Care, Inc. provides a formal homework time at each site Monday through Thursday. Each homework area has the equipment necessary to assist children in working on their homework. Homework time is not a tutorial session, but rather time and space to work on and complete homework assignments with staff available to provide guidance. To help us, it is important to speak with the child care teacher, with your child present, to define your family's homework expectations. A homework contract is available to outline formally the homework expectations for staff, children, and families. For more specifics about homework, please speak with the Site Director.

**Kids Clubs & Club Ones** Kids Clubs are an important part of our program. These specialty classes, taught by staff, are offered to the children once a week, usually lasting four weeks in duration. These skill-building classes are a chance to mix ages, learn new things, and have fun! Children select from a wide range of choices and activities are based on staff interest, expertise, and the children's interests. Activities have included cooking, sports, ceramics, games, science, woodworking, art, and drama. In addition, during the week and on full days they will offer Club Ones or Colored Squares where a staff presents choices and children informally choose an activity.

**Special Events** Throughout the year, sites host special events for the children and events for children and their families. The special events are the culminating of curriculum themes or celebrations of seasonal holidays. Some of these events include a Halloween Carnival, Winter and Spring Performances, and fundraising events. Sites often need family volunteers to help with the events.

**Interact** in partnership with the Rotary Club of Belmont, Footsteps hosts an Interact service club for youth in 5th grade. The Footsteps Interact club meets once a month starting in late September.

**Movies** Occasionally during the school year, children will view movies. These movies or education programming are either streamed or videos or DVDs and are shown at the site or as part of a field trip to a movie theater.

BESGROUNO

Our mission is to provide infants, children, and their families with quality programs in a safe, nurturing, and enriching environment. One of our goals is to create an environment ensuring the optimal health of your children and of our staff. Child Care programs, such as Footsteps Child Care, are uniquely positioned to contribute to improving the nutritional health and physical activity of children and adolescents. Footsteps Child Care is an important venue to improve health behaviors and outcomes for many reasons:

- Our programs occur during a time of day when many children are likely to be sedentary if not given active options.
- Children are at a developmental stage when they are forming health habits they will carry into adulthood.
- Promoting healthy behaviors in after school programs can have benefits for a lifetime.
- Our sites offer a supportive, safe environment in which children can feel comfortable trying new activities and building skills.
- Our staff is caring, knowledgeable, and well trained – they serve as role models that positively influence children’s health and nutrition choices.1

Footsteps Child Care must also ensure the wellness of our staff. Like many Americans, our staff spends much of their waking hours at work. Therefore, creating a healthy environment for our employees is an important way to improve their health.

In order to ensure that we maximize the benefits of our programs, we have created a Wellness Policy to guide our efforts to create a healthy environment for youth, their families, and our staff. It includes guidelines regarding nutrition, physical activity, and promotion of healthy behaviors for your children while they are at Footsteps Child Care, as well as guidelines for the food and physical activity environments for staff at our sites. Using these guidelines, we seek to ensure that all youth and staff have access to:

- Healthy foods and beverages.
- Regular, fun, and inclusive physical activity (or, for staff, the flexibility to get activity on their own).
- Appropriate and understandable health information; and
- Positive, healthy role models.

We recognize that healthy eating and physical activity are not all or nothing decisions—they are about balancing choices. Our goal is to make the healthy choice the easy choice.

NUTRITION GUIDELINES

These guidelines are meant to inform food and beverage selection for all program-related activities, including snacks, beverages, and meals provided to youth, as well as food and drinks served at staff meetings and events.

YOUTH NUTRITION GUIDELINES

These guidelines cover regular snacks and meals served to youth at Footsteps Child Care. Monthly birthday celebrations are excluded from strictly following these guidelines. Likewise, food served or purchased by youth off-site may not meet the criteria.

Food Served to Youth at Footsteps Child Care. Food items served to youth at Footsteps will meet the following criteria:

- We encourage breastfeeding. Mothers may express milk into bottles to be served to their infants while they are at Footsteps Child Care. For babies not breastfeeding, formula will be served following manufacturers’ instructions.2,3

For infants who have begun to eat solid foods, we aim to introduce a wide variety of soft, safe foods, including fruits and vegetables and lean meats, as appropriate. We aim to offer new foods one at a time to check for allergic reactions.4

Avoid serving cow’s milk, as it’s not recommended for children under 1 year of age.5 For young children 1 to 2 years old:

- Provide a variety of foods, including fruits and vegetables, grains, dairy products (including whole milk), and lean meats.
- Fat content will not be restricted, as very young children need additional calories from fat to ensure growth and development.6

For children 2 years of older:

- For children aged 2-3, no more than 30-40% of total calories are from fat; for children aged 4 and above, no more than 25-35% of total calories are from fat.
- For children aged 2 and above, food items will have no more than 10% of total calories from saturated fat.
- For children aged 2 and above, food will contain no trans-fat.7
- For children aged 2 and above, no more than 35% of calories are from total sugars, with the following exceptions:
  - Yogurt and milk with less than 25g of sugar per 8oz serving.8
- For children aged 2 and above, snacks should have 200mg of sodium or less and entrées/meals should have 480mg of sodium or less per serving.9

In general, we will aim to:

- Offer appropriate portion sizes and regular meal/snack times to prevent both hunger and over-eating. Toddler portion sizes are about one-quarter of adult serving sizes. For children 4-8, portion sizes should be about one-third of adult serving sizes. For children 9 years and old, portion sizes about the same size as for adults.10
- Focus on whole grains (ensure ≥ 50% of grains served are whole grains).
- Emphasize colorful and varied produce. Include at least one serving of fruits or vegetables at each snack (can be fresh, frozen, canned, or dried; ensure no items with added sugar). Vary produce offered to maximize nutrient diversity. At meal times, about half of plate should be produce, following USDA’s “My Plate” initiative.11 Whenever possible, purchase produce that is grown locally.
- Vary food items and meals served, and encourage youth to try different foods, especially fruits and vegetables.
- Focus on lean proteins such as egg whites, poultry, fish, and soy products.
- Select healthy fats (mono- and poly-unsaturated fats and omega-3 fatty acids) over unhealthy fats (saturated fats).
- Avoid foods that are deep fried, par fried, or flash fried.
- Minimize sweet baked goods (cookies, cake, etc.) served. Any sweets that are served will be trans-fat-free.
- Accommodate dietary restrictions due to allergies, religion, or culture.
- Encourage students to participate in selecting, preparing, and cleaning-up food, as appropriate.

MyPlate is part of a larger communications initiative based on 2010 Dietary Guidelines for Americans to help consumers make better food choices. The guidelines recommend making about half of your plate fruits and vegetables.

Beverages Served to Youth at Footsteps.

For infants and children less than 2 years of age:

- We encourage breastfeeding for infants less than 1 year old; those not breastfeeding will be served formula following manufacturers’ instructions (see above). Children 12 months to 2 years will be served water and whole milk.

For children aged 2 year and above, we will:

- Offer healthy beverages, including low- or non-fat milk, and non-carbonated water.
- Always have water easily available at no cost to students. Serve water in bulk (e.g., in a pitcher) during snack and meal times.
- Serve only 1% or fat-free milk. Limit milk consumption to 12-24 oz. per day.
- Never serve beverages that contain caffeine or non-nutritive sweeteners.

PHYSICAL ACTIVITY GUIDELINES

PHYSICAL ACTIVITY FOR YOUTH
To ensure that youth meet national recommendations for daily physical activity, we will:

- Dedicate at least 20% or at least 30 minutes of morning and after-school program time to physical activity (60 minutes for a full day program).
- Ensure that daily physical activity time includes age-appropriate aerobic, muscle- and bone strengthening activities.¹²
- Provide physical activities in which students engage in moderate to vigorous aerobic activity for at least 50% of the physical activity time.
- Provide activities that help children strengthen muscles, such as tug-of-war, push-ups, sit-ups, or climbing on play structures.
- Include a variety of physical activity options that are fun, promote learning and skill building, and are accessible and enjoyable to students of all abilities. Ensure that activities are inclusive.
- Provide short physical activity breaks between and/or within learning or sedentary activities to invigorate children and eliminate extended periods of sitting, and to incorporate physical activity into transition time.
- Select field trips and off-site events that promote physical activity and introduce youth to new ways to stay active.
- Encourage students to participate in selecting, organizing, and leading activities, as appropriate. In addition, we seek to reduce the amount of time youth are sedentary. We will:
  - Limit time spent watching television or movies, playing video games and digital devices’ (computer, etc.) to less than one hour per day to allow for other activities. Exceptions include video games that incorporate moderate to vigorous physical activity (e.g., Dance-Dance-Revolution) and use of computers and other devices for schoolwork.
FOOTSTEPS CHILD CARE SUN SAFETY GUIDELINES

The following information provides sun safety guidelines for parents and introduces California’s laws related to sunscreen application in a school or out of school program environment.

Skin Cancer Facts
Skin is the largest organ of the body and skin cancer is the most common of all cancers.
- It accounts for nearly half of all cancers in the United States
- More than 3.5 million cases of basal and squamous cell skin cancer are diagnosed in this country each year
- The Skin Cancer Foundation reports that one blistering sunburn in childhood more than doubles a person’s chances of developing melanoma later in life

Footsteps Child Care Recommends: All families are asked to give Footsteps written permission annually to apply sunscreen to their child while in our care, considering any allegories. Older children may apply the sunscreen themselves.
- Parents apply sunscreen every morning to their child’s skin. Applying it to any part, which will be exposed to the sun (i.e., face, arms, and legs).
- Sunscreen labeled with your child's name should be in your child’s school bag.
- Your child should reapply sunscreen to exposed areas mid-day, either when transitioning into Footsteps after school or at lunch. For younger children staff will reapply sunscreen when needed.

The American Cancer Association Recommends:
- Avoid direct exposure to the sun between 10 a.m. and 4 p.m.
- Teach children the shadow rule: if your shadow is shorter than you are, the sun’s rays are at their strongest.
- Seek shade, especially in the middle of the day when the sun’s rays are strongest.
- Follow the Slip! Slop! Slap! and Wrap!® rules:
  ✓ **Slip** on a shirt: Cover up with protective clothing to guard as much skin as possible when you are out in the sun.
  ✓ **Slop** on sunscreen: Use sunscreen and lip balm with broad-spectrum protection and a sun protection factor (SPF) of 30 or higher. Apply a generous amount of sunscreen (about a palmful) to unprotected skin at least 30 minutes before outdoor activities. Reapply every two hours and after swimming, toweling dry, or sweating. Use sunscreen even on hazy or overcast days.
  ✓ **Slap** on a hat: Cover your head with a wide-brimmed hat, shading your face, ears, and neck. If you choose a baseball cap, remember to protect your ears and neck with sunscreen.
  ✓ **Wrap** on sunglasses: Wear sunglasses with 100% UVA and UVB absorption to provide optimal protection for the eyes and the surrounding skin.

State Law aligns with Sun Safety Guidelines
In 2002, the California state government amended the Education Code as follows:

**Section 35183.5 (b)**
1) Each school site shall allow pupils the use of sunscreen during the school day without a physician's note or prescription.
2) Each school site may set a policy related to the use of sunscreen by pupils during the school day.
3) For purposes of this subdivision, sunscreen is not an over-the-counter medication.
4) Nothing in this subdivision requires school personnel to assist pupils in applying sunscreen.

EFFECTS OF LEAD EXPOSURE

Children 1-6 years old are the most at risk for lead poisoning.

- Lead poisoning can harm a child's nervous system and brain when they are still forming, causing learning and behavior problems that may last a lifetime.
- Lead can lead to a low blood count (anemia).
- Even small amounts of lead in the body can make it hard for children to learn, pay attention, and succeed in school.
- Higher amounts of lead exposure can damage the nervous system, kidneys, and other major organs. Very high exposure can lead to seizures or death.

LEAD IN TAP WATER

The only way to know if tap water has lead is to have it tested.

LEAD POISONING FACTS

- Buildup of lead in the body is referred to as lead poisoning.
- Lead is a naturally occurring metal that has been used in many products and is harmful to the human body. There is no known safe level of lead in the body.
- Small amounts of lead in the body can cause lifelong learning and behavior problems.
- Lead poisoning is one of the most common environmental illnesses in California children.
- The United States has taken many steps to remove sources of lead, but lead is still around us.

IN THE US:
- Lead in house paint was severely reduced in 1978.
- Lead solder in food cans was banned in the 1980s.
- Lead in gasoline was removed in the early 1990s.

Tap water is more likely to have lead if:

- Plumbing materials, including fixtures, solder (used for joining metals), or service lines have lead in them.
- Water does not come from a public water system (e.g., a private well).

To reduce any potential exposure to lead in tap water:

- Flush the pipes in your home. Let water run at least 30 seconds before using it for cooking, drinking, or baby formula (if used). If water has not been used for 6 hours or longer, let water run until it feels cold (1 to 5 minutes).*
- Use only cold tap water for cooking, drinking, or baby formula (if used). If water needs to be heated, use cold water and heat on stove or in microwave.
- Care for your plumbing. Lead solder should not be used for plumbing work. Periodically remove faucet strainers and run water for 3-5 minutes.*
